Creative, driven, analytical and a team player. That's Jasper Jaklofsky in a nutshell. I like to immerse myself in the topics that come up and then bring it back with enthusiasm in the form that fits best. As a Product Owner, I get energy from iterative development of a product. By being the bridge between the stakeholders and a development team, I strive to find just that approach to dot the i's and cross the t's.

"Happiness comes from solving problems"

WORK EXPERIENCE

Webshop owner

TheDigitalProblemSolver, Echt

Sept 2023 – Present
